THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus requires prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you can escape much pain and suffering and all risk. Buy it now; it may save life. For sale by Chas. C. Davis.

Three of the four Americans captured in Spanish Honduras recently have arrived at New Orleans. They are charged with conspiracy to use the United States mails to defraud. One of the prisoners made his escape from the steamer Utstein before it left Honduras.

Master Clarence Miller aged 10 years, eldest son of Mr. and Mrs. Walter Miller, departed this life at his home in this city at 7:55 P. M. last Tuesday for a fairer and better home from whence no traveler ever returns. When the news of this sad death became known a gloom which time alone can heal was cast over our city. All of the family and many of his intimate friends were with him when he breathed his last. This boy will always be remembered as one of the best to ever grow up in this town and should be a lesson to young and old to get ready to meet dear little Clarence in the world to come. This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol for Dyspepsia: "E. C. DeWitt & Co., Chicago Ill.—Dear Sirs:—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs; in fact I made up my mind that I could not live but a short time, when a friend of mine recommended Kodol. I consented to try it to please him and was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly; and write this hoping that humanity may be benefited. Yours very truly, Jake S. Moore, Atlanta, Aug. 10, 1904."

Denver, July 8.—A demonstration unparalleled in the history of political parties took place in the Democratic National Convention today. For one hour and a half pandemonium reigned. A thousand and Democratic delegates and 15,000 spectators threw restraint to the winds, tossed up in their their coats and hats and rushed over each other in an effort to plant a State standard on the highest vantage point.

It was a sincere spontaneous demonstration, one that bore no semblance to a machine. The plan was to adjourn the convention immediately after the preliminary work. The motion was put by the chairman and a storm of noises responded to it. The votes came from the galleries. Many had been given tickets for this session only, and they wanted to see the fun. It was suggested that some of the national leaders of the party should address the convention. Senator Gore, of Oklahoma, was escorted to the stand, and the announcement was made that following him would be heard John Sharp Williams, of Mississippi; Bob Taylor, of Tennessee, and other representative leaders.

The first mention of Bryan's name was made by the Blind Senator from Oklahoma, which brought forth an applause that lasted for an hour and twenty seven minutes.

Bryan nominated on first ballot last night at Denver convention. The man for second place is still a problem to solve. He will more than likely be an Eastern man.

POLITICS AND POLITICIANS

In a speech at Lincoln to the Pennsylvania delegation, en route to Denver, Mr. Bryan scored National Committeeman Guffey, of Pennsylvania.

A meeting of the subcommittee of the Independence party will be held in Chicago to-day to perfect arrangements for the National Convention of the party, to be held in Chicago later in the month.

The Kentucky delegation, at the Democratic National Convention held a harmonious meeting and organized by electing Ollie M. James chairman. Urey Woodson was unanimously chosen National Committeeman. J. C. W. Beckham was put on the Committee on Resolutions; J. B. McCreary on Organization; J. C. Mayo on Credentials; W. B. Haldeman on the committee to notify the presidential nominee, and J. T. Griffith on the committee to notify the vice presidential nominee.

The National Committee decided all of the contests for seats in the Denver convention with the exception of those from Pennsylvania and Idaho. In nearly every instance the delegates holding regular credentials were given places on the temporary roll. Tom L. Johnson, of Ohio, came out a victor as did Roger Sullivan, of Illinois, while former Senator Dubois won in the subcommittee and will probably be seated by the full committee this morning. Pat McCarren, of Brooklyn, was so bitter in his attacks on Murphy and Coler that the committee stopped him and declined to hear him any further.

Of all the physical culture fads that have been recommended to women, none is so odd as that championed by Ella G. Grundy, an Englishwoman who is to visit this country in hope of interesting American women in her ideas. Mrs. Grundy's gymnasium is the lawn or garden or both, and she insists upon all work, even to the handling of a spade.

"The beginner will find," she writes, "that ten minutes' spade exercise is as good as a brick massage for making her body tingle. Digging with a spade means beauty. The constant bending of the body works the muscles of the back and waist, waking up torpid livers and helping to reduce size. Are you a round shouldered, narrow-chested woman? Then drag the garden roller up and down the lawn or tennis court a few minutes every day, and you will be surprised at the improvement in your figure. Your chest will expand, your neck will grow round and plump, and your back will become upright. But never, never push the roller. Beauty culture in the garden does not altogether depend upon the exercise of the body. The finishing touches are given by Nature's cosmetics, which are fresh air, sun and rain."

ON THE WRONG SIDE

Uncle Sam's Yearly Balance to the
Bad About \$144,000,000.

Washington, June 30.—The statement of the treasury receipts and expenditures for the fiscal year ending today shows a marked falling off in the receipts as compared with the year 1907, and a large increase in the expenditures. The excess of expenditures over receipts for the year approximates \$60,000,000, which has been exceeded only twice since the civil war. In 1894, there was a deficit of \$69,802,000, and in 1899 there was another of a little over \$89,000,000, and in each of the four intervening years the receipts fell considerably below the disbursements. Again in 1904 and in 1905 there were shortages of \$41,770,000 and \$23,000,000, respectively. The total receipts this year are shown to have been about \$599,000,000, of \$64,000,000 less than for the fiscal year 1907. Custom receipts are shown to have fallen off about \$46,000,000 from those of 1907, while the receipts from internal revenue sources are short nearly \$19,000,000. Miscellaneous receipts show a slight gain.

The disbursements for the year are shown to have aggregated about \$659,000,000, or \$80,000,000 more than for 1907, and \$54,000,000 more than for any other year since 1865, not excepting the Spanish war period. Although these increased disbursements very general and are shown in nearly every account except that of interest on the public debt, some of them were for important permanent improvements.

The Panama canal during the closing year will have cost the government \$38,000,000 as against \$27,000,000 for the year 1907, and the work this year in connection with the reclamation of the public lands is shown to have cost about \$13,000,000, which is not far from last year's figures.

The deficiency in the postal revenues for the present year reaches \$13,500,000, as against \$7,500,000 for 1907, making a difference of \$6,000,000. This is the largest postal deficiency in the history of the government, except in 1905, when it reached nearly \$185,000,000. The records show that there has been a postal deficiency every year since the establishment of the service, with the exception of twelve, when small surpluses were shown. The expense of the rural free mail delivery this year is about \$25,000,000.

The decrease in the amount of the receipts of \$64,000,000 and the increased expenditures of \$80,000,000 make a difference against the treasury for the fiscal year of \$144,000,000.

Harry Curry, who for several years was blacksmith for W. J. Sparks at Sparks Quarry, died Monday of a complication of diseases.

The Fourth passed off quietly here, there being nothing doing out of the ordinary. In fact it was too quiet to be the anniversary of such a memorable day.

R. L. McLEERON, S. R. C.

The candidates for the various county offices are becoming exceedingly numerous. The present outlook indicates that there will be an average of about ten for every office.

Mt. Vernon's ball team will play Crab Orchard's nine on the latter's grounds to-morrow afternoon. In the two former games of the season Mt. Vernon has found it easy sailing with the Crab Orchard boys

The L. & N. R. R. will sell tickets to Crab Orchard July 15-16 17 on account of the fair, from Louisville, Middlesboro, Saxton, Winchester and all intermediate points, at one fare plus .25 round trip, good returning the 18th. Stock shipped over this road to Crab Orchard Fair will be returned free.

The catalogues for the Brodhead fair will be ready for distribution next week. See or write the secretary, John Robins, Brodhead, Ky., for one.

This years premiums are the most liberal ever offered by the association. If you have not already prepared one or more exhibits, now is the time to get busy and do your best to excel those who may compete against you. This is a county institution and during the twelve years of its existence the county has been greatly benefited each year, because of its existence. The spirit of improvement and the desire to present the best display of farm products, best horse, mule or calf as the case may be, has been worth much to the county. Therefore we urge all to attend the fair and make it just as good as possible.

Mt. Vernon Lodge 319 I. O. O. F. celebrated its first anniversary July 4th., with a big supper at the Miller Hotel. There were fifty-one Odd Fellows, with their wives, sisters and sweet-hearts present. Mrs. Mollie Miller, the hostess had prepared a most delightful supper and the hungry craft did well, their part. Judge L. W. Bethurum acted as toast master and did it to a Queen's taste. Dr. W. J. Edmiston, of Crab Orchard, district deputy and Mr. L. K. Wells, also of Crab Orchard were the first to speak giving a brief history of the origin progress aim and purpose of Odd Fellowship. Next in order was Attorney C. C. Williams, who spoke for about ten minutes on the beauties of the order. Following were Cashier M. B. Salin and Dr. A. G. Lovell, who spoke briefly of the purposes and aims of the order.

Returning to the lodge room, the District Deputy took charge of the meeting and proceeded to install the newly elected officers for next term. They are as follows: Noble Grand, W. T. Davis; Vice Grand Dr J. F. Baugh; Secretary W. A. Cox and W. L. Richards, Treasurer. Starting a year ago with seventeen, the membership at the end of the first year was sixty-seven; a phenomenal growth. Through the kindness of the Masonic order the Odd Fellows, have been able to secure most comfortable quarters at a nominal cost, but before another year has passed they hope to be located in their own home on some desirable spot in the town, where all Odd Fellows will always receive a cordial and welcome greeting.

Our friend Charlie Henderson, who is now yard master at Miami, Fla., is proving himself a great fisherman as well as a splendid railroad man. He sent us a scale from a Silver King Tarpum, which he caught himself; weighed 147 pounds and measured 6 feet and 2 inches. It was one of the largest ever caught with rod and reel in Southern waters. It took two about 40 minutes to land the monster fish. The scale sent us measures about 2 1/2 inches in diameter. These scales are very valuable and marketable at all times, as they are used very extensively in fancy work.

Cashier W. L. Richards and Mr. Dillingham, of Maretburg have started a canning factory near Maretburg. The plant is now in operation, and large quantities of blackberries are being put up. They will can tomatoes, peaches and apples. A car load of cans have been ordered for that purpose. If the plant proves a success, it will be moved to Mt. Vernon before another year, enlarged and run upon a much larger scale. The SIGNAL has been fighting for such an enterprise for many years and we certainly hope that the gentlemen behind it will find it a good business proposition.

The L. & N. offers a rate of 95 cents round trip to Berea August 6 7 and 8 on account of the Berea Fair.

The Mt. Vernon Roller mills expect to begin operations by the 15th. of the month. Mr. J. A. Proctor the mill-wright has been sick for a few days, and for that reason it might be that the time for starting may be prolonged a few days. Mr. H. H. Beaty, the proprietor is exerting every effort to be ready by that time.

CIRCUIT COURT:—The application for a new trial in the case of Pur Rigby was granted and Rigby was released on bail. Lee Norton who was on trial at the time of our last issue for the shooting of Mrs. Arnold, was fined \$50 and six months in jail. Norton by payment of \$340 was released from the jail sentence.

The case of the John A. Scrogins heirs against Sigmond, decided in favor of the defendant.

D. N. Williams against J. M. Nave compromise, \$50 in favor of Mr. Williams.

If the railroad company allowed their dirt to wash down and obstruct passways in the same way the town is allowing its dirt to wash down and obstruct the railroad crossing, it would only be a very few days until the company would have to pay the damage. As the old saying goes: "What is fair for the goose is fair for the gander." After the heavy rains of last Tuesday, it was necessary for the section foreman to take his crew of men and work for some time cleaning the mud, screenings, etc., off the side track at the North switch before the passenger trains could pass. Not only this, if the large creeks are allowed to run right down the middle of the street, what is the use of spending money building pikes to be washed away when the first heavy rains come. We would respectfully call the attention of our board of trustees to importance of looking after this matter, and urge that the necessary steps be taken to protect the interest of all concerned.

ADJOINING COUNTIES

A little girl about three months old, who had been buried about twelve hours or more in New York was discovered still breathing in her carelessly dug grave by players on the links of the Hackensack Golf Club Sunday.

The Southern Kentucky College located at Hopkinsville, is to be changed to McLean College, in honor of the Dr. Archibald McLean, president of the Foreign Missionary Society of the Deciples denomination.

At London, Will McFarland was fatally wounded with a shotgun in the hands of his brother, Ben McFarland, who refused to make a statement to County Judge Pennington, about the affair. It is said that the brothers had been at odds for some time over a division of their father's estate. Ben McFarland was arrested and now in jail at London.

Little Ills of Children

Mothers and all others who have children about the house cannot do their families a better service than to learn of simple and reliable remedies that correct children's ailments. Many grown people are suffering today for the ignorance or negligence of those who had charge of their bringing up.

Children are prone to constipation, and if it isn't corrected early, the bowels get in the habit of not working normally and soon chronic constipation results that may last off and on all through life. Then children eat almost nothing, are prone to indigestion, continually and as a consequence indigestion sets in soon followed by worms, stomach pains, or diarrhea, or any one of a dozen other troubles. To say that it will right itself is putting altogether too much faith in chance. It is trying with the child's present and future health.

A better way is to give the child a dose of something intended to cure that very trouble, and nothing better for the purpose is known than Dr. Caldwell's Syrup Pepsin. It never grips but acts gently and as it has a pleasant taste the child will not refuse to take it. Buy a 50-cent or \$1 bottle of your own and save the child from sickness. You should remember that a child whose stomach is in good working order is not likely to catch colds and fever diseases.

Mrs. Curry, of Frothingbridge, Ill., attributes the remarkable health of her child to Dr. Caldwell's Syrup Pepsin, which she gives regularly in these disorders. Mrs. Eversole, of Hinsdale, Ill., is frank to say that the present good condition of her five-year-old boy is entirely due to this wonderful remedy. As it is your own family and see if you cannot share these opinions. Every bottle is guaranteed to do exactly as we claim, and the purity of ingredients is also vouched for.

RECOVERSIGHT FOR A DAY.

For several hours she was able to recognize her only son at home, David Akin, and her granddaughter Alice Akin, who lives with her. Objects out-doors, she said, looked natural.

As night came on her eyes gradually began to fall again and everything has been dark to her since. Mrs. Akin declared she visited heaven in the spirit and saw and talked with her children and people. She continues to give praise for the wonderful day and says it was the pappiest one of her life.—Little Rock Special to St. Louis Globe Democrat.
